Full Stack Developer | Software Developer Intern

PROFESSIONAL SUMMARY

Final-year Computer Science Engineering student (B.Tech, 2026) with production-level experience building full stack web applications using the PERN stack (PostgreSQL, Express.js, React.js, Node.js). Skilled in REST API design, JWT-based authentication, database schema design, and cloud deployment on AWS. AWS-certified with hands-on internship experience. Seeking a Full Stack Developer internship or entry-level role to deliver scalable, maintainable software in a team environment.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Responsive Web Design, Bootstrap

Backend: Node.js, Express.js, REST API Design & Integration

Languages: JavaScript, SQL, Python

Databases: PostgreSQL, MySQL, MongoDB

Auth & Security: JWT, bcrypt, Input Validation, Session Handling

Developer Tools: Git, GitHub, VS Code, Postman, npm

PROJECTS

Full Auth REST API | *Node.js, Express.js, MongoDB, JWT, bcrypt*

- Built a production-ready authentication backend with JWT access tokens, bcrypt password hashing, and role-based route protection.
- Implemented rate limiting, soft deletes, and timing-attack prevention for security hardening.
- Structured codebase using MVC architecture with modular route, controller, and middleware layers.

Student Result Tracker | *React.js, Node.js, Express.js, PostgreSQL*

- Developed a full stack CRUD application with a React.js frontend and an Express.js/PostgreSQL backend.
- Designed normalized relational schemas in PostgreSQL and exposed RESTful endpoints consumed by the React UI.
- Implemented form validation on the client and parameterized queries on the server to prevent SQL injection.

Student Registration System | *Python, HTML/CSS, JavaScript, MySQL*

- Built a full stack CRUD application with a Python backend, HTML/CSS/JS frontend, and MySQL database.
- Implemented secure input validation, session handling, and REST-style routing for end-to-end data management.

Personal Portfolio Website | *HTML5, CSS3, JavaScript, GitHub Pages*

- Designed and deployed a fully responsive multi-section portfolio, optimized for desktop, tablet, and mobile.
- Implemented CSS animations, smooth scroll, and interactive UI elements using vanilla JavaScript.

INTERNSHIP EXPERIENCE

AWS Cloud Computing Intern

May 2025 – July 2025

AWS Internship Program

- Gained hands-on experience with AWS core services: EC2 (compute), S3 (storage), IAM (access management), and CloudWatch (monitoring).
- Deployed and managed cloud infrastructure applying best practices for security, scalability, and resource configuration.
- Completed real-world deployment tasks that strengthened understanding of cloud-based application hosting.

EDUCATION

Bachelor of Technology (B.Tech), Computer Science and Engineering <i>Viswam Engineering College, Madanapalle JNTUA</i>	Expected: April 2026 <i>CGPA: 7.0 / 10</i>
Intermediate (MPC), Class XI – XII <i>Bluemoon Junior College APBIE</i>	Passed: 2022 <i>CGPA: 6.7 / 10</i>
Secondary School Certificate (SSC), Class X <i>Valmeeki High School SSC Board</i>	Passed: 2020 <i>CGPA: 10.0 / 10</i>

CERTIFICATIONS & TRAINING

AWS Cloud Internship Certification — EC2, S3, IAM, CloudWatch, Deployment (May–July 2025)
Power BI & Data Analytics Workshop (August 2025)
AI, Machine Learning & IoT Workshop (December 2024)

FIELDS OF INTEREST

Full Stack Web Development — PERN Stack (PostgreSQL, Express.js, React.js, Node.js)
REST API Design & Backend Engineering
Cloud Computing & Deployment (AWS)
Database Design — Relational (PostgreSQL, MySQL) & NoSQL (MongoDB)
